GRAPHICAL USER INTERFACE RELATED TO NON-STANDARD TRADING
OF FINANCIAL INSTRUMENTS

Abstract of the Disclosure

[0049] A graphical user interface related to non-standard settlement trading in financial instruments is provided. The graphical user interface preferably includes a selectable portion of a display screen related to a financial instrument and a selectable tab for accessing a selectable portion of the display screen related to one or a plurality of non-standard settlement positions with respect to the financial instrument. In one embodiment of the invention, when the tab is selected, access is provided to the selectable portion of the display screen related to the plurality of non-standard settlement positions.
